Scott Nicholas

815 N. Broadway

Saratoga Springs, NY 12866

Profile

Scott is working towards a B.A. in Computer Science. His job experience includes retail, tech support, customer service, and web programming. Scott is proficient with most types of computer systems, including Macintosh, Windows based PCs, and Linux based systems. Scott is proficient with HTML, PHP, CSS, JavaScript, Java, Perl and is capable of learning new languages quickly. He is capable of working individually, and as a part of a team. Scott is friendly and sociable, easily adapts to new environments, and is good at communicating and working with others. Scott is incredibly passionate about technology and excited about the continuing evolution of the world wide web.

Experience

Apple Campus Rep, Apple Education/Volt Technical Services Saratoga Springs, NY, 2008 - 2009

Apple Campus Reps work to increase the presence of Apple on college campus by informing and exciting students and faculty alike. Scott participates in all Apple related events on campus. Due to his exhaustive technical knowledge, Scott also assists students and faculty with hardware and software problems affecting their Macs.

Web Development Intern, Texterity, Inc. Southborough, MA, 2008

Texterity specializes in delivering digital editions of hundreds of magazines to customers. As an intern, Scott helped to find, diagnose and fix bugs on both the Perl back end and the Ajax front end of the system. Scott created a number of videos to promote various magazines on YouTube. Scott wrote the WordPress theme for the company blog. Additionally, Scott's extensive knowledge of all things Apple assisted Texterity in evaluating the future of the Texterity platform on the iPhone and iPod touch.

Mac Specialist/Creative Assistant, Apple Retail Albany NY, 2008

By being extremely knowledgeable and personable, a Mac Specialist helps customers find the perfect solution for their computing and entertainment needs. Creatives, also known as Personal Trainers, are extremely knowledgeable of all Apple products and software. Creatives help Apple customers get the most out of their Macs, iPods and iPhones. As most Apple Store's don't always have enough full-time Creatives, many stores use their most knowledgeable Specialists to assist the Creatives with personal training appointments.

Mac Specialist, Apple Retail Natick MA, 2007
